Light Up the Learning Brain

7 Keys to Reducing Disruptive Behavior in the Classroom

Jessica Sinarski

Are you eager to increase learning opportunities, reduce negative behaviors, and improve staff and student morale?

Then it's time to become a brain builder!

We all are aware of an alarming increase in reported behavioral disruptions in school settings. Often less understood is the critical role that the brain plays in shaping all behavior, including problematic words and actions in our classrooms and beyond.

Light Up the Learning Brain illuminates the many ways that teaching through a brain-based lens can breathe new life into your work.

You will discover:

- how the brain's two main "operating systems" interact - and often compete
- the amygdala's vital role as an alarm system and gatekeeper
- ways that brain function is closely connected to our senses
- the power of play, curiosity, and safety in fostering brain development
- scripts, tips, and tools to make your job easier
- ...and much more.

Blending the latest neuroscience with practical application, this book will be your guide to wake up the creative, curious, problem-solving "upstairs" brain of staff and students.

Brains are diverse and distinctive, and so are the solutions presented in this accessible and insightful resource. Facts and insights are balanced with hands-on ideas that can be implemented immediately.

As educators, we have a timely opportunity to empower our students to build their own big, brave, beautiful, world-changing brains - and isn't that, after all, why we chose this profession in the first place?

I Have Ants in My Pants

Julia Cook

Louis just can't sit still, and everyone keeps telling him he has ants in his pants. His mom explains this means he wiggles a lot and teaches him a special tool, the Wiggle Dance. In *I Have Ants in My Pants*, Cook helps normalize the feeling many kids have when they struggle to control their wiggles and provides strategies for improving impulse control.

Brief Counseling Techniques that Work

15MinuteFocusSeries.com

15-Minute Focus is a series that aims to help school counselors and educators overcome three of the biggest challenges they face:

- Limited Time to manage the number of students for whom they are responsible
- Mental Illness Stigma
- Budget Constraints for Ongoing Training

Each week, students are spending more time at school than they spend with their parents. Because of this, teachers, counselors, and other school staff are often among the first to notice changes in behavior that could signal a mental or behavioral health issue.

According to the American School Counselor Association, students' unmet mental health needs can be a significant obstacle to academic, career, and social-emotional development and even compromise school safety. Most students in need do not receive adequate mental health supports. Research indicates 20 percent of students need mental health services, yet only one out of five of these students receive the necessary services.

Working alongside experts in various fields of mental health counseling, NCYI has developed a series of research-based, brief counseling books that home-in on a specific mental health topic, signs to look for, practical intervention and classroom management strategies, and effective ways to communicate and collaborate with internal staff, outside referrals, and student families.
