Hey, We Can Do This! Getting It Right on Mental Health

Tara Rolstad

SPEAKER BIO: Tara Rolstad is an advocate, author and comedian who helps audiences better understand the experiences of those who struggle with mental health and their families, and guides communities to become safer, more effective and loving for those with mental health challenges. Because mental health affects everyone...with a brain. Tara is also the founder and director of Shattering Stigma with Stories: Understanding Mental Health, producing mental health conferences for school districts, faith communities, and other organizations that have reached more than 1500 people. She has also performed stand-up comedy around the Pacific Northwest with Stand Up for Mental Health and Mental Health at the Mic, and is co-author of the book *No, Really, We WANT You to Laugh: Mental Illness and Stand-Up Comedy: Transforming Lives*.

Thursday, November 14th (This session is open for all conference attendees)

Keynote Speaker (General Session Time, 8:30 am – 10:00 am)

Empathy is a Verb: Lessons for Learning Real Success in the Digital Age

Michele Borba

A sought-after motivational speaker, she has presented keynotes throughout North America, South America, Europe, Asia, the Middle East, South Pacific and served as a consultant to hundreds of schools and corporations, including the Pentagon and 18 US Army bases in Europe and the Asian-Pacific. Her proposal: "Ending School Violence and Bullying" (SB1667) was signed into California law in 2002. She offers realistic, research-based advice culled from a career of working with over one million parents and educators worldwide.

Dr. Borba is a frequent NBC contributor who has appeared 140 times live on the TODAY show and countless other shows including: three Dateline specials, Dr. Phil, and many others. She has also been featured in TIME, Washington Post, Newsweek, People, U.S. News & World Report, New York Times, Reader's Digest, Globe and Mail. She's a media spokesperson for numerous corporations, and a consultant to McDonalds and Disney.

She lives in Palm Springs, California with her husband and has three grown sons.

ABOUT THIS SESSION: Empathy is often sidelined as a "soft skill." In Dr. Borba's presentation, *Empathy is a Verb*, she will offer hard evidence that empathy is one of the most important skills that 21st Century learners will need to thrive in a complex, global, and digitally-driven world, and why it must become an educational and societal priority. She will share ways that educators around the globe have weaved empathy-building practices into existing lessons and helped students to develop emphatic mindsets in a test-driven culture. Dr. Borba will provide practical ways to create positive outcomes by cultivating empathy in your school. She will share her decade long journey to discover how to optimize human potential. Surprisingly, it was children from Canada to Rwanda (and numerous places in between) who offered the best ideas to cultivate empathy. The best news: if applying these simple strategies together we can revolutionize not only our schools and homes, but also society...and build the best investment for our future: human capital.

2. College and Career Readiness: K(indergarten) to J(ob)

Leigh Bagwell

SPEAKER BIO: Leigh Bagwell most recently served as the Director of School Counseling Services at the Tennessee Department of Education. She has led transformational work in school counseling throughout the state through the revision of the school counseling model and standards, the creation of a regional peer-support network, and the launch of

a dedicated communications channel for counselors, supervisors and administrators. As a school counseling leader, her mission is to provide school counselors with the training and resources needed to deliver high quality, student driven, data informed comprehensive school counseling programs to all students. She believes counselors and school leaders need to work together more deliberately. This collaboration is critical to ensure that all students have access to the opportunities and supports they need to successfully move through their elementary, secondary, and postsecondary education into their chosen career.

In addition to her work in Tennessee, Leigh has shared her experiences and knowledge with school counselors and school counseling leaders in Georgia, Texas, Kentucky and Iowa as well as working with the American School Counselor Association. After teaching school counseling graduate students at Middle Tennessee State University, Leigh was inspired to pursue counselor education. She is currently working on her doctorate in Counselor Education and Supervision at the University of Tennessee. Her experience includes working as a school counselor and school counselor supervisor in both suburban and urban school districts.

ABOUT THIS SESSION: Join Leigh as she presents *College and Career Readiness: K(indergarten) to J(ob)*. What does a successful student look like? What are the skills, knowledge, and experiences our students need to transition effectively from education and training to the workforce? Preparing today’s students for tomorrow’s workforce goes beyond the traditional career speakers and “careers on wheels” of days past. More than half of our students will pursue a career that has not been developed yet. College and career readiness begins with early exposure and awareness to a broad range of career fields and employability skills. These skills will not only prepare them for success in the workplace, but also success in both secondary and postsecondary education. When students transition from elementary schools to middle and high schools, they also progress from career awareness to career exploration and planning. College and career readiness continues to focus on the development and refinement of employability skills. It also broadens the scope from just knowing about different careers to exploring the high demand opportunities in their communities, aligning personal interests and aptitudes to career fields, and identifying specific pathways to move successfully from secondary to postsecondary to the workforce.

Using school counseling standards as the foundation, we will discuss the profile of a college and career ready student. Participants will leave with specific school counseling strategies and practices that will deepen their students’ understanding of the world of work and connect it to their school experience. School counselors will increase their capacity to provide high quality advising and support students as they move along their chosen pathways to and through secondary and postsecondary education and on to the workforce.

His presentations are often “the spark” for schools in their quest to meet and exceed state/federal accreditation standards and implement strategies for continuous improvement.

ABOUT THIS SESSION: Join John as he presents *Following the S.A.M.E. Pathway to Restorative Justice*. S.A.M.E. stands for Social, Academic and Moral Education. It is a holistic approach to creating and sustaining academic excellence in today’s schools. S.A.M.E. provides a research supported, holistic view of school improvement by addressing all of the components of school and district culture which must be addressed if lasting school reform is to be attained, i.e. the Social Domain, the Academic Domain and the Moral Domain. As the rigor of state accountability measures increase, schools must focus their efforts to achieve and sustain academic excellence. Come learn how this approach has been particularly successful in schools serving high-poverty populations.

This interactive presentation will introduce creative and effective SFBC techniques counselors can use in both individual and group counseling, with an emphasis on helping anxious children and teens.

Attendees will gain a better understanding of emphasizing solutions instead of problems, learn the 12 basic assumptions of SFBC, discover strategies to implement SFBC in small and individual group counseling, and develop techniques to help anxious children with developmentally appropriate techniques.
