

Turn Compliance Activities Into A Meaningful Experience For Students

Building a Personal Graduation Plan (PGP) doesn't have to be time-consuming. With **SchoolLinks**, all experiences are centralized and deployed with pre-built TEKS aligned lesson plans.

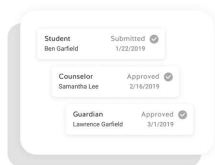

SchoolLinks is all you need for PGP and your college and career readiness initiative

SchoolLinks offers over 80 interactive college and career readiness planning activities. Complete all PGP required activities in one platform and have them automatically documented and electronically signed off by parents and counselors.

Turn student experiences into CCMR data insights

An easy-to-understand data dashboard allows student support staff to view progress and status of each individual's PGP completion and CCMR points attainment.

A living document with electronic signatures

Approval made simple. With electronic signatures, you know exactly whose signature is missing on a plan. You can also export for families don't own any digital devices.

A modern college and career readiness platform. Built in Texas, for Texas schools.
