1. Digital Learning: Technology Tips for the Busy School Counselor

Andrea Burston

SPEAKER BIO: Andrea Burston is a former high school computer/technology teacher turned elementary school counselor. She is the school counselor for Wake County Public Schools working at JY Joyner IB Magnet Elementary School in Raleigh, NC. Andrea is also the writer of the *jycounselor* blog where she shares her enjoyment of her career as well as many counselor ideas with school counselors from all over the world. She loves using technology and is always looking for new and innovative ways to integrate technology into her school counseling program. Andrea has presented at various conferences and workshops on using technology in counseling programs.

ABOUT THIS SESSION: Learn how to use digital resources such as Google, online storage and online communication tools to simplify your comprehensive school counseling program, to instruct students as well as design technology enriched learning experiences for all students. BYOD (Bring Your Own Device) to become familiar with digital learning competencies and engage in interactive activities.

2. MTSS and School Counseling: How Do They Fit Together

Emily Goodman-Scott

SPEAKER BIO: Dr. Emily Goodman-Scott is an Associate Professor in Counselor Education and the School Counseling Coordinator at Old Dominion University, in Virginia. As a previous school counselor and special education teacher, Dr. Goodman-Scott has been in education for nearly 15 years. She was a 2018 recipient of the Top 40 Under 40 award for her region, is the current president/chair of the Virginia School Counselor Association, and enjoys speaking at national conferences, invited state association workshops, and school districts trainings. Dr. Goodman-Scott is the lead editor of the 2019 book *A School Counselor's Guide to Multitiered Systems of Support*, and has co-authored the *I Can* series of children's social stories.

ABOUT THIS SESSION: Is MTSS (PBIS/RTI) currently implemented in your school? Is your school considering implementation? Would you like to learn more? MTSS is widely implemented throughout the country and school counselors are often an integral part of implementation. Come to this session to discover the alignment between MTSS and Comprehensive School Counseling Programs (e.g., the ASCA National Model), gaining strategies to maximize your efforts. Work smarter, not harder. The presenter will share school-based examples for implementation and alignment.

3. FreeKind: Human Trafficking Identification, Readiness, and Early Intervention

Lisa Kersey

SPEAKER BIO: Lisa Kersey serves as Executive Director for Freekind, a Virginia based anti-human trafficking nonprofit. One of their signature programs is the nationally recognized, award-winning Prevention Project™ curriculum, designed for middle and high school youth with the goal of preventing the next generation from being trafficked and inspiring tomorrow's leaders to continue the fight to end human trafficking.

Since its launch in the Fall of 2011, the Prevention Project program has been adopted by nearly 40 schools across the Commonwealth. Now in its 10th year, the program has reached 40,000 students in 18 states and equipped hundreds of youth workers with the tools to properly identify and support students who have experienced exploitation or otherwise been affected by human trafficking.

Lisa is a graduate of the University of Virginia and holds a master's degree from the University of North Carolina at Chapel Hill.

ABOUT THIS SESSION: Freekind's Youth Service Training equips counselors, teachers, social workers, and others with the tools needed to recognize human trafficking, understand the stages of grooming and risk factors, and know how to best intercept situations and prevent future ones. We believe that equipping youth support personnel is making an investment in the most important safety net for students within schools and youth programs.

These trainings are delivered interactively and contain PowerPoint, video, and powerful relevant case studies, implemented in sessions ranging from 1.5 hours-3 hours. Freekind's trainings are highly-rated and include resources from the U.S. Department of Education that are intended to address and help schools respond to human trafficking, recognize the problem, and take the appropriate course of action. Alongside a small group of professionals from around Virginia, Freekind was requested as a subject matter expert to consult and collaborate with the Virginia Department of Education to create the Guidelines for Training on the Prevention of Trafficking of Children. Freekind's Youth Service Training meets and exceeds the standards recommended by the Department of Education. While Freekind has strong roots and partnership with our state's Department of Education, our Youth Service Training is applicable to states across the nation.

Thursday, March 3

Keynote Speaker (During the 8:30 a.m.–10:00 a.m. Opening Sessions)

Chase Mielke

SPEAKER BIO: Chase Mielke is an award-winning educator, writer, and speaker focusing on preventing educator burnout and increasing student engagement. He has been awarded multiple honors, including being a Michigan Teacher of the Year nominee and a Allegan County “Outstanding People for Education” recipient. For his work minimizing the achievement gap with at-risk high schoolers, his Positive Psychology program received a Michigan Association of School Administrator’s “Winner’s Circle Award.” The program teaches concepts of positive emotion, engagement, meaning, and accomplishment to hundreds of students each year, especially at-risk high schoolers. Consistently, students reduce failure rates by at least 50% each year.

In addition to modeling excellence as an educator, his writing has been featured on WeAreTeachers, Huffpost, Edutopia, and EdPost. As an engaging, nationally recognized speaker, he has traveled across the nation to speak with students and educators on topics of resilience, mindset, applied neuroscience, and positive psychology.

ABOUT THIS SESSION: Join Chase as he presents *The Burnout Cure*. Chase was moments away from quitting teaching — a career he loved. He was burned out, bitter, and beaten by the external challenges of modern education. But he didn’t quit. He doubled-down, using the same science of well-being he had taught his students for over a decade.

In this engaging, humorous, and heartfelt talk, Chase shares his experience as a veteran educator and provides key insights on how the science of small, positive moments creates thriving adults, learners, and communities. Your audience will be empowered to take care of themselves, so they can better take care of the young adults who need them.

Learning Outcomes:

OPTIMISM – Refocus on the good in order to reignite our love for teaching and parenting

OWNERSHIP – Take control of our own well-being through simple, research-based actions that boost purpose and happiness

MINDFULNESS – Be present and turn minor moments into major momentum to thrive personally and professionally

COMMUNITY – Cultivate positive relationships with kids and adults to build supportive and resilient cultures.

Chase will also be presenting a breakout session.

Friday, March 4

Whether conducting professional development activities or supporting students and families, Mr. Jamison enjoys working and collaborating with all stakeholders.

ABOUT THIS SESSION: Join Robert as he presents, *“How Do You View the World? A Discussion of Diversity and Equity.”* The goal of this introspective session is for participants to think about diversity and equity through a more expansive lens. The presenter will review common terms used in schools, classrooms and organizations and how these terms relate to our behaviors. The session will also review things to consider when working with staff and students, and personal stories related to these topics will be shared. Participants will be asked to participate in individual, small and large group activities throughout the presentation.
