

The Barry Robinson Center helps children and families where parents serve or have served in the U.S. military.

As a premier non-profit behavioral health system, we offer residential programs for boys and girls, ages 6-17. Children and teens from military-connected families will find a supportive community here. Our programs have been designed to help them find understanding and acceptance, which contributes to their success in treatment. It's our privilege to serve those who have served us.

This is **ME.**

And this is the rest of my family.

We all fit together in our family frame.

It works because everyone has their own shape and space.

I think I'm pretty lucky
because I'm part of
a military family.

It makes me really proud to know
my parents are working to keep our
country safe.

Living the military life is pretty fun for a kid like me!

I get to do stuff other kids don't. My life is kinda unique.

I've tried on night vision goggles and I've looked inside a Humvee.

I get to live all over the world.
I have friends in so many places.

I've taken pictures of all of them,
so I'll never forget their faces.

We get to shop at military stores,
that have like a gazillion things.

They even have comic books and candy,
and kites with giant wings!

Oh, and lots of
stuff for dogs, too.

But sometimes, being a military kid isn't that great.

When I move to a different place, my friends can't come with me.

Then, I have to be the new kid again.

And start all over to find different friends,
in a different school, with different teachers...
basically, a different everything.
